9-11 Questionnaire

We are quickly coming up on the 12th anniversary of the September 11th terrorist attacks. While many of you do not remember the events because you were not born yet, many of your family members might. I would like you to go home tonight and find at least two family members that remember the events of that day, and ask them the following questions:

Family Member #1: __________________________________________________________
Where were you when you heard about the events of 9-11?

What was your first reaction upon hearing or seeing the events of 9-11?

How did the events of 9-11 change your life?

Family Member #2: __________________________________________________________
Where were you when you heard about the events of 9-11?

What was your first reaction upon hearing or seeing the events of 9-11?

How did the events of 9-11 change your life?
